System Type: Solar Electric Solar Thermal Biomass
 Geothermal Wind Other

Explain Other: _____

Location and Function of Each Meter

Rated Nameplate Capacity (kW): _____

Commercial Operation Date: _____

Begin Testing Date: _____

Estimated Yearly Production (kWh): _____

Percent of Fossil Fuel used as an energy source (if applicable): _____

Net Meter Number: _____

Gross Meter Number: _____

Primary Meter Number: _____

(Provide documentation for complicated scenarios)

**Portfolio Energy Credit Application
For Renewable Energy System Generators
NAC 704.8901 – 704.8937**

1. **Attach:**
 - a) **A copy of each business license and certificate issued by the State of Nevada and any local government within Nevada authorizing the applicant to conduct business.**
 - b) **A map showing the location of the facility.**
 - c) **An electrical one-line diagram showing the facility's interconnection points with the local distribution or transmission system and the location of all generation units.**
2. **Provide documentation demonstrating that the renewable energy system meets the eligibility requirements set forth in NRS 704.7815.**
3. **Provide documentation of any other trading program this facility trades through.**
4. **If any information in the application changes, the applicant must notify the Commission and supply updated information within 30 days of the occurrence of the change.**

OATH

I, [name of signatory] _____, on behalf of [name of applicant] _____ declare under penalties of perjury, that in such capacity, I am qualified and authorized to file and verify such application; that I have carefully examined all the statements and matters contained in the application; and that all such statements made and matters set forth therein are true and correct to the best of my knowledge, information and belief. Declarant further states that the application is made in good faith, with the intention of presenting evidence in support thereof in every particular. Declarant further declares that the applicant agrees to submit to the jurisdiction of the Public Utilities Commission of Nevada for the purpose of participating in the renewable energy credit trading program. Furthermore, the declarant declares that the applicant's renewable energy system has not been built with the benefit of any rebates, incentives (i.e., Solar Generations), or any other discounts that have disqualified the applicant from receiving portfolio energy credits.
