TOWN OF MINDEN ANNOUNCES SUSPENSION OF WATER SHUTOFFS *Delinquent Water Accounts Will Not Be Suspended*

Minden, NV. – Jeff Cady, Town of Minden Public Works Superintendent, has announced that in order to support community efforts to mitigate the impact of COVID-19, the Town of Minden is suspending water service shutoffs, effective immediately, for delinquent payments within its service boundary.

“As a public utility, the Town understands our obligations to the communities we serve, and that includes the personal safety of our neighbors through personal sanitation,” said Cady. “We know a safe and reliable source of potable water is vital for hand washing, surface cleaning, and other measures to help stop the spread of COVID-19.”

Town of Minden indicated that the policy will remain in effect until at least April 6, and will be reevaluated at that time considering the prevailing COVID-19 conditions. Customers who are behind on their bills are encouraged to bring them current or discuss their options with Town of Minden Office Staff through a scheduled appointment, phone, or email, as the suspension of shutoffs is only temporary.

“Maintaining service to our customers is a step we are taking to support the health and well-being of our customers and communities. We encourage everyone to read and follow the guidelines recommended by the Centers for Disease Control (CDC) to protect themselves and their families,” Cady added.
