2019 legislative session leads to PUCN rulemaking proceedings

The PUCN has opened several rulemaking dockets to address new laws passed during the 80th (2019) legislative session. The PUCN adopts regulations, or rules, to determine how utilities or other regulated entities must comply with laws passed by the Legislature. The process of adopting regulations is called rulemaking.

Most of the regulations created by the PUCN are contained in Nevada Administrative Code (NAC) chapters 701B, 703 and 704. Rulemakings must be conducted according to a formal process spelled out in Nevada Revised Statutes Chapter 233B, which includes a workshop and a hearing. Regulations must be approved by the Legislative Counsel Bureau and the Legislative Commission to become effective and codified in the NAC.

A summary of bills that affect the PUCN that passed during the 80th legislative session are below. To view the bills in their entirety, visit <https://www.leg.state.nv.us/App/NELIS/REL/80th2019/Bills/List>.

To follow the rulemaking process for the dockets associated with the bills below, submit a service list request: [http://puc.nv.gov/About/Docs/Forms/Service_List_Requests_\(Subscribe_or_Unsubscribe\)/](http://puc.nv.gov/About/Docs/Forms/Service_List_Requests_(Subscribe_or_Unsubscribe)/).

SENATE BILL 154 | PUCN DOCKET 19-06006

AN ACT relating to natural gas; requiring the PUCN to adopt regulations authorizing a public utility which purchases natural gas for resale to engage in renewable natural gas activities and to recover the reasonable and prudent costs of such activities; requiring such a public utility to attempt to incorporate renewable natural gas into its gas supply portfolio; and providing other matters properly relating thereto.

SENATE BILL 299 | PUCN DOCKET 19-06007

AN ACT relating to vehicles; revising provisions governing the Electric Vehicle Infrastructure Demonstration Program; and providing other matters properly relating thereto.

SENATE BILL 300 | DOCKET 19-06008

AN ACT relating to electric utilities; authorizing an electric utility to file an application for the establishment of an alternative rate-making plan; requiring the PUCN to adopt regulations governing the filing of such an application; revising the dates for the filing of general rate applications by electric

utilities; repealing certain duties of the Commission relating to determining the impact of net metering on rates charged by electric utilities; and providing other matters properly relating thereto.

SENATE BILL 329 | DOCKET 19-06009

AN ACT relating to the prevention of natural disasters; requiring an electric utility to submit a natural disaster protection plan to the PUCN; setting forth the requirements for such a plan; authorizing an electric utility to recover costs relating to the development and implementation of a natural disaster protection plan; prohibiting, with certain exceptions, a person who is not a qualified electrical worker from performing certain work on the electric infrastructure of an electric utility; and providing other matters properly relating thereto.

SENATE BILL 358 | DOCKET 19-06010

AN ACT relating to renewable energy; declaring the policy of this State concerning renewable energy; revising provisions governing certain reports relating to the portfolio standard;

PUCN pipeline safety division urges safe excavating procedures

The Public Utilities Commission of Nevada (“PUCN”) pipeline safety division reports it has investigated several incidents this spring involving excavators attempting improper repairs to stop the flow of natural gas from damaged facilities.

When natural gas pipelines have been damaged and natural gas is escaping, the following steps are the most important to take, according to PUCN Senior Gas Pipeline Engineer Neil Pascual: “Immediately cease work, evacuate the impacted area to minimize the hazard presented by the damaged pipeline, telephone emergency 911 services from a safe area, and contact the utility operator.”

Nevada Revised Statute (“NRS”) 455.140 and Nevada Administrative Code (“NAC”) 455.160 require excavators to follow the steps outlined above and not attempt to operate any valve or other device owned by a utility.

Excavators can minimize the ongoing hazard of a broken pipeline by evacuating all persons from the area, rather than having an unqualified person try to stop the gas flow.

Excavators should not attempt to temporarily stop the flow of gas from a damaged pipeline because:

- The potential for a buildup of static electricity on the plastic pipeline or a person’s fingers can cause ignition. If an excavator attempts to touch the damaged pipeline, that action could result in a spark that ignites the escaping gas and causes a fireball in the immediate area.

**Know what's below.
Call before you dig.**

- If the excavator is in a deep enough hole or trench where the gas is escaping, the gas could displace most of the oxygen in the trench, resulting in the person inhaling a large quantity of pure natural gas and losing consciousness.

Any person or entity failing to adhere to the laws outlined in NRS Chapter 455 can be subject to civil penalties of up to \$2,500 per day per violation, up to a maximum of \$250,000 for a given calendar year. Additionally, the excavator could face utility repair and damage costs that may range from a few thousand dollars to millions of dollars if the damage were to result in a significant incident. The PUCN has issued more than 50 civil penalties to excavators and operators in the past three years for violations associated with NRS Chapter 455 totaling more than \$300,000.

811 – Call Before You Dig

The PUCN reminds businesses and residents that before starting any digging project, no matter how large or small, a call should be placed to the statewide 811 hotline (“Call Before You Dig” program). Professional locators are dispatched, usually within two working days, to the requested dig site to mark the approximate locations of underground lines. Utility lines need to be properly marked because even when digging only a few inches, the risk of striking an underground utility line still exists.

For more information about safe digging procedures, visit www.call811.com, www.usanorth811.org or www.puc.nv.gov.

revising provisions relating to the price charged by certain electric utilities for electricity generated by certain renewable energy facilities; revising provisions relating to the acquisition or construction of renewable energy facilities by certain electric utilities; revising the types of renewable energy that may be used to comply with the portfolio standard; revising the portfolio standard for providers of electric service in this State; revising the applicability of the portfolio standard; revising the authority of the PUCN to impose administrative fines or take administrative action; requiring the PUCN to revise any existing portfolio standard applicable to a provider of new electric resources to comply with the portfolio standard established by this act; and providing other matters properly relating thereto.

SENATE BILL 547 | PUCN DOCKET 19-06029

AN ACT relating to energy; excluding from regulation as a public utility certain plants or equipment used by a data center; revising provisions governing the applicability of certain assessments imposed by the PUCN; revising the information required to be included in the integrated resource plan filed by an electric utility with the Commission; revising the criteria to be eligible to apply to the Commission to purchase energy, capacity or ancillary services from a provider of new electric

resources; revising the requirements a provider of new electric resources must satisfy to be eligible to sell energy, capacity or ancillary services to eligible customers; revising the requirements an eligible customer must satisfy to be authorized to purchase energy, capacity or ancillary services from a provider of new electric resources; revising the terms and conditions for the purchase of energy, capacity or ancillary services by eligible customers who have been approved to make such purchases from a provider of new electric resources; repealing provisions governing certain agreements relating to generation assets of an electric utility; and providing other matters properly relating thereto.

ASSEMBLY BILL 465 | PUCN DOCKET 19-06028

AN ACT relating to energy; requiring electric utilities to offer an expanded solar access program to certain customers and to submit a plan to the PUCN for such a program; requiring the Commission to adopt regulations establishing standards for the program; requiring the Commission to approve a plan for an expanded solar access program if certain requirements are met; and providing other matters properly relating thereto.
